

Kane County ROE's First Ever Online Academy

Administrator Academy #1144 Becoming an iAdministrator

Today's school leaders should be harnessing the power of Web 2.0 to demonstrate for faculty and staff the new teaching and learning strategies used in 21st Century classrooms. These strategies can improve student engagement and improve student academic achievement.

Participants in this workshop will learn how to:

- Leverage Web 2.0 tools and applications to increase communication among staff, students, and the public
- Provide professional development for faculty with web tools
- Conduct classroom walkthroughs and teacher evaluations with web tools
- Improve their own time management
- Lead a strategic planning process in the area of 21st Century learning

4 Online Sessions
2 hours each session

Instructor

Lindsay Jonas
Director of Professional Development,
